

SEM Technologist

When was the last time you had fun at work?

At **Clacktion**, we are looking for PhDs in Mathematics or Physics to work with us in our office in Barcelona. We do Search Engine Marketing (SEM) worldwide and work for international clients. We love and breath technology and everyone at the company has a tech background.

What we look for

A young professional with Mathematics or Physics background. **A problem solver with initiative, autonomy and an innovative mentality.** We look for people that want to have fun while working and create a great atmosphere with their teammates. **We value personal attitude at the very top.** We really mean that!!!

We are looking for someone who is able to take on data challenges and is also able to deal with algorithms and scripts.

To do

- Design SEM keyword structures for international clients
- Create predictive algorithms for bidding in real time
- Create scripts for optimizing keyword structures
- Create technologies that disrupt the SEM industry
- Research on data mining and big data.

What you need to have

- PhD in Mathematics or Physics (No previous marketing or industry experience needed)

Other things we value

- Your willingness to help and care for others.
- Excellent capabilities to manage numbers and ratios
- Programming knowledge (Python, SQL, PHP, R...)
- Statistics knowledge

Conditions:

- Contract: Full time
- Salary: based upon value and experience provided
- Private insurance
- Openings: 6

Why is Clacktion a good place to work?

- We believe on freedom and ownership thinking. At Clacktion we do not count your vacation days or working hours and It's not about a salary, it's about your life. We look for people that belong to our culture, work hard and takes on challenges daily. If you are a person who takes care of all your responsibilities and goes beyond what is expected at ALL times, you are a Clacktion person. Clacktion, as part of the Cyberclick Group, has just been awarded with the greatest place to work in Spain 2014.
- Imagine working on an office looking at the Mediterranean Sea 20 meters away from the water in one of the most beautiful office buildings in Europe? Yes, this would be your place.
- Work with some of the best. What we are most proud of, is our team. Clacktion's team is very small, but it is the one with more Ph.Ds in the advertising industry in Europe. (They range from Quantum Physics to Math or Software)
- Get a real world experience. Work with real clients hand to hand and take your own decisions (Yes, that's what makes its awesome!!).

We only accept applicants with passion for what they do.
