

PhD position at the TUM (Technical University of Munich), on the topics of QCD and Collider Physics phenomenology, formal aspects of the theory of Scattering Amplitudes and Mathematical Methods in Quantum Field Theory.

Essential requirements to be considered for the position will be to have obtained (or plan to obtain by the beginning of the doctoral studies) a Master degree, or equivalent, in Theoretical Physics or Mathematical Physics, and to have worked on a Master dissertation in this field.

The position will be for 3+1 years starting in Fall 2021.

Applications or inquiries should be sent directly to me at the email address:

lorenzo.tancredi@cern.ch

The interested applicant should send an **updated CV**, a short **motivation letter** (at most 1 page) and arrange for one **reference letter** to be sent to me at the same address, **by the 15th of May 2021**.
